LOCATION

This Chambolle-Musigny "Vieilles Vignes" is composed of 5 different parcels. In the south of Chambolle, stand the "Fouchères" neighbor of the premier cru "Borniques" and right above we find the famous "Musigny" with a soil of limestone.

In the north, next to More-Saint-Denis, "Gamaires" with a deeper soil.

Finally, we have "Fremières" next to "Beaux Bruns", 2 very different Chambolle Villages.

TERROIR

You have to imagine that before, with the erosion of the soils, the clay went down here.

The soil is deeper, we don't have too much limestone, with an interesting proportion of clay, it brings silkness and elegance.
